

FIBARO with HomeKit

 **FIBARO**[®]
Home intelligence

 Works with
Apple HomeKit

What is Home Automation?

Internet of Things

IoT by FIBARO = Smart Home

**Turn on
cameras**

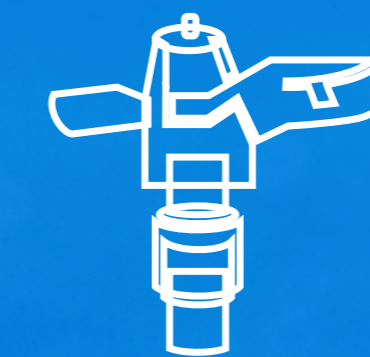

**Close
blinds**

78°F / 25°C temp.

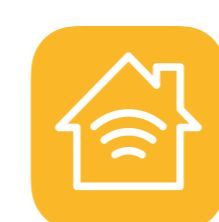

**Set lights
to 80%**

Turn on sprinklers

FIBARO supports HomeKit

Works with
Apple HomeKit

What is HomeKit

HomeKit protocol helps you to connect devices in your home,
so they work together with a single command

Apple HomeKit ecosystem

How it works

Access your home remotely on your iOS device through Apple TV or iPad acting as a hub at home from any place in the world. Use your voice to command. Siri knows type and status of HomeKit-enabled products you have in your home

Why FIBARO with Apple HomeKit?

- Innovative products
- High quality
- Brand awareness
- Complex offer
- First real plug'n'play solution
- Marketing communication
- Enormous market opportunity

MOTION SENSOR

MULTISENSOR

- temperature sensor
- light sensor
- accelerometer

multisensor:

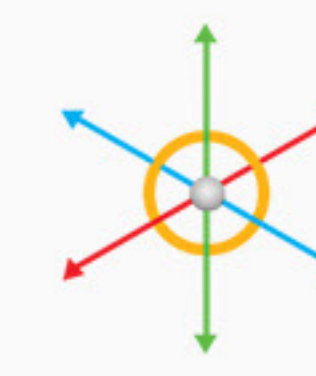

temperature
sensor

light
sensor

motion
sensor

level
accelerometer

Works with
Apple HomeKit

DOOR / WINDOW SENSOR

REED & TEMPERATURE SENSOR

Works with
Apple HomeKit

- reed sensor
- temperature sensor
- pre programmed scenes switch
- 7 different colours

control:

doors / windows

roof window

gate

garage door

temperature

tamper

FLOOD SENSOR

WATER & TEMPERATURE SENSOR

Works with
Apple HomeKit

- water detector
- temperature sensor
- telescopic probes
- battery powered
- unsinkable

contains:

temperature
sensor

visual colour
display

level
accelerometer

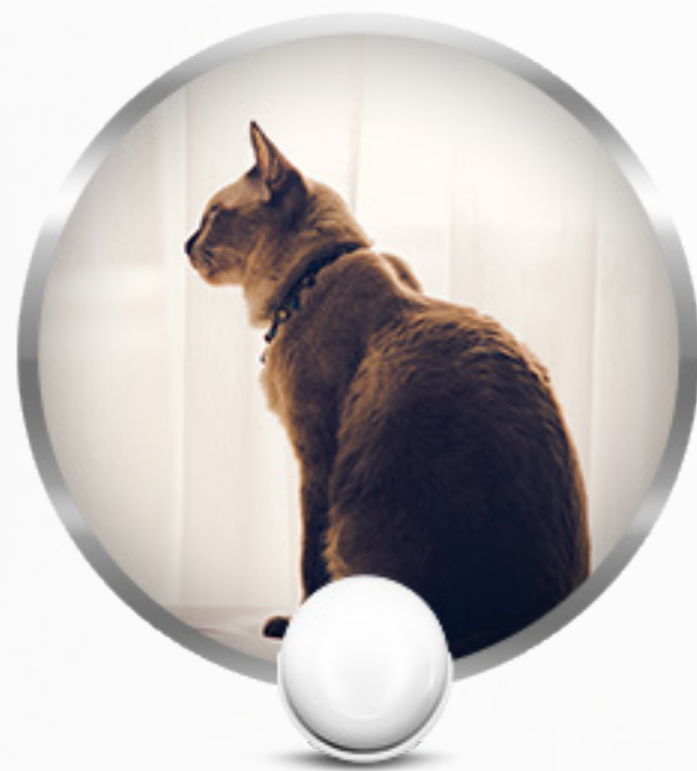

flood
sensor

tamper
protection

FIBARO use cases
